<p align="center">NFL Draft Storyboard</p>

Splash Screen

The First screen will show a black screen with an NFL logo and a title that reads "NFL CEO Draft – Broncos & Cowboys Edition".

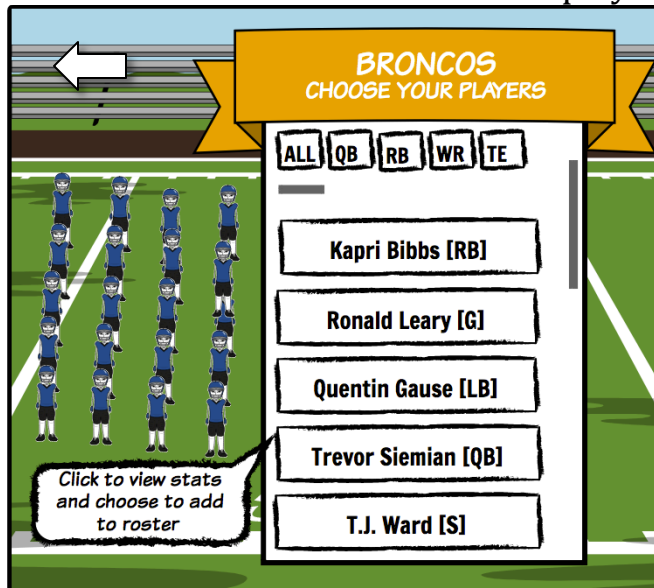

Choosing a Team

At the start of the program the user will see a screen that displays a list of 2 teams (Broncos & Cowboys) as displayed below.

Once the user chooses a team the screen will change displaying the team name and an instruction to choose players. A back option is available.

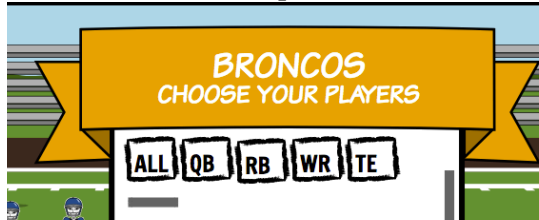

Players

The players will be listed horizontally within a white box. Each player will have their position listed next to their name. The user will be able to scroll through a list of names.
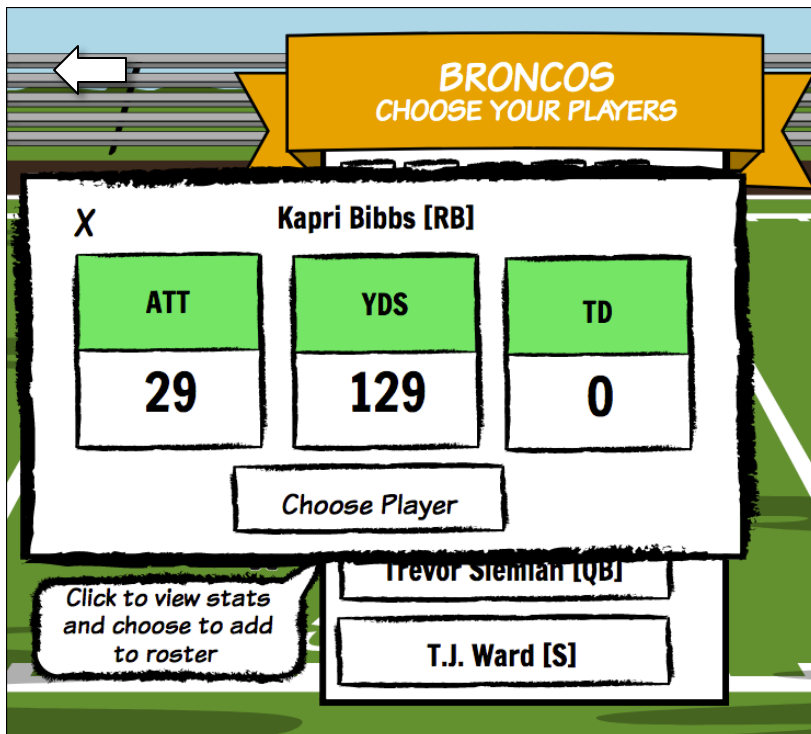

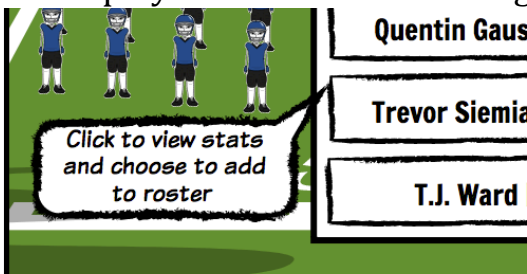

Filtering

The user will be able to filter the results by choosing the specific position at the top of the list. This list will be able to scroll left to right to see all available options.

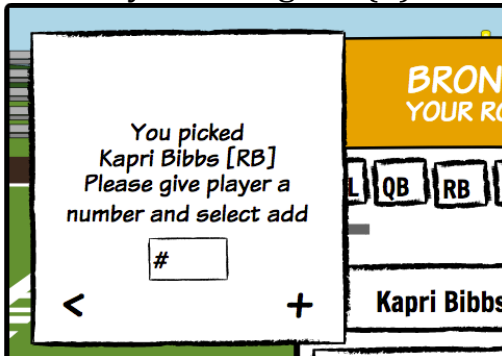

Viewing Stats

There will be an info bubble at the bottom left hand corner of the screen that informs the user to select a player to see stats and choose whether or not to add player to the roster. There will also be an option to go back to the player list if the user changes their mind.
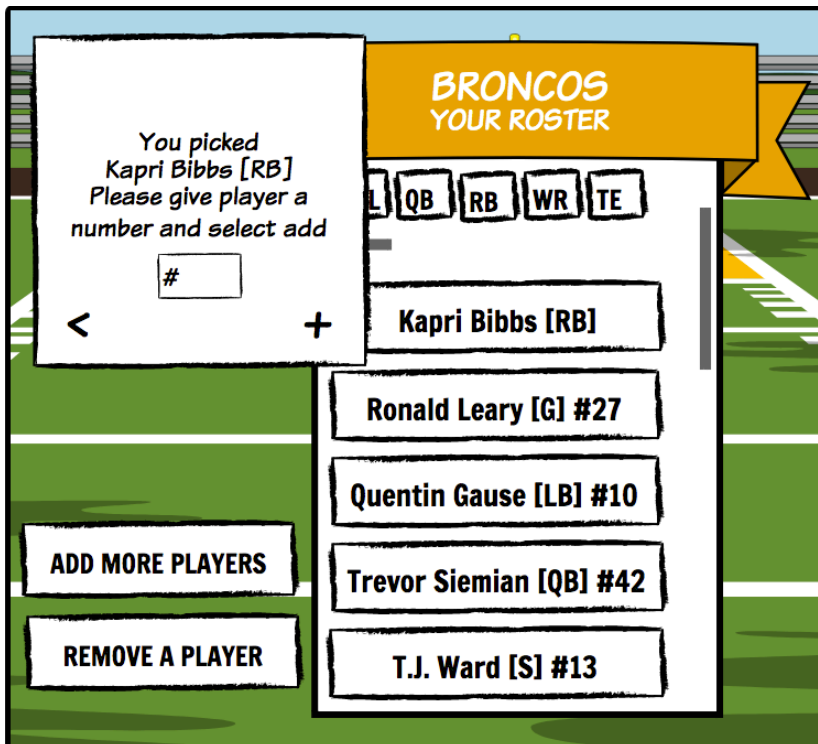

Selecting Players

Once the user selects a player to be on the roster the screen will change to display the roster and a pop up screen will ask the user to enter a number for the new player and select the add (+) sign to finalize the decision. There will be an option to go back to the player selection screen by selecting the (<) button.

You picked Kapri Bibbs [RB] Please give player a number and select add

Adding and Removing Players

The user will be able to view all players within the roster after adding each new player. There will be an option to filter by position just as before. If the user wants to add another player to the roster, the "Add More Players" button can be pressed which will take them back to the player selection screen. There will be an option to remove players as well.
